

## Clax Alfa Liquid Detergent

### Description

Use for industrial washing machine on light, medium and heavy soil wash classification.

### Key properties

Clax Alfa – Liquid Detergent is a pale odorless yellow slightly viscous liquid containing phosphate as a water hardness binder. It is formulated for use in medium water hardness conditions, its source of alkalinity is derived from a blend of TEA and caustic, providing a well buffered, adequately alkaline wash solution for balanced bleaching. Such conditions are essential in minimising chemical damage to the wash linen. In addition to the ingredients mentioned above, other components are incorporated to improve performance.

### Benefits

- Non-ionic surfactants – ensures good removal of fatty soils
- Blend of phosphates – guarantee good dispersion of dirt and excellent binding of water hardness
- Iron sequestrants – prevent yellowing of fabric due to iron
- Optical brightener – guarantee lasting brightness and whiteness of fabric
- Bleaching stabiliser – protects the fabric from bleaching damage

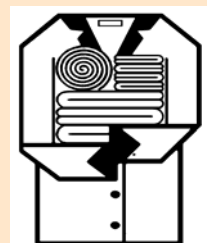

### Use instructions

Dosing level is dependent on wash classification.

### Dosing recommendation:

Soil Level	Dosage (ml/kg dry goods)
Light	1 – 3
Medium	4 - 6
Heavy	7 - 10

# 3DL1

## Clax Alfa

### Technical data

Appearance	clear light brown liquid
Actual Alkalinity [% Na <sub>2</sub> O;pH 8.3]	3.80
pH [1% solution]	12.0
Relative density [20°C]	1.25

The above data is typical of normal production and should not be taken as a specification.

### Safe handling and storage information

Store in original closed containers or (where applicable) in an approved bulk tank, away from extremes of temperatures.

Full guidance on the handling and disposal of this product is provided in a separate Material Safety Data Sheet conforming to the requirements of the above regulations is available.

### Available pack sizes

SKU number	Pack size	Shelf life
HH0092200	20L	2 years

Note: Shelf life declare is in original closed container at room temperature storage condition.
